

ORDER OF ADOPTION
BOARD OF BARBERING AND COSMETOLOGY

Title 16, Division 9 of the California Code of Regulations.

(1) The Board hereby Amends Section 980.1 of Article 12 to read as follows:

980.1. Procedures for Cleaning and Disinfecting Whirlpool Footspas, and Air-Jet Basins.

(a) As used in this section, "whirlpool footspa" or "spa" is defined as any basin using circulating water.

(b) An air-jet basin is defined as any basin using an air jet stream system to move water.

(c) After use upon each patron, each whirlpool footspa or air-jet basin shall be cleaned and disinfected in the following sequential manner:

(1) All water shall be drained from the basin.

(2) The inside walls of the basin shall be scrubbed and cleaned of all visible residue with a clean brush and liquid soap (labeled as such on soap product) and water.

(3) The spa basin shall be rinsed with water.

(4) The spa basin shall be refilled with clean water.

(5) The water in the basin shall be circulated with the correct amount (read manufacturer label for mixing instructions) of the EPA-registered hospital-liquid disinfectant that is labeled as a bactericide, fungicide and virucide, through the basin for at least 10 minutes.

(6) The spa basin must be drained, rinsed, and wiped dry with a clean paper towel.

(7) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done after a client.

(d) At the end of each day and after the last client, each whirlpool footspa or air-jet basin shall be cleaned and disinfected in the following sequential manner:

(1) The screen and any other removable parts shall be removed.

(2) Scrub all visible residue from the screen, inside walls of the basin, any other removable parts, and the area behind them with a clean brush and liquid soap and water.

(3) Reinsert the clean screen and any other removable parts.

(4) Fill the basin with warm water and detergent (labeled as such on detergent product) and circulate the detergent through the spa system for at least 10 minutes (follow manufacturer's instructions).

(5) Drain the detergent solution and rinse the basin.

(6) Refill the basin with clean water and circulate the correct amount (read the label for mixing instructions) of the EPA-registered Hospital liquid disinfectant which the label claims is a bactericide, fungicide, and virucide through the basin for at least 10 minutes.

(7) Drain, rinse, wipe the basin dry with a clean paper towel and allow basin to dry completely.

(8) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done at the end of the day.

(e) At least once each week, after completing the procedures provided in subsection (d) (1 through 6) each whirlpool footspa and air-jet basin shall not be drained and the following sequential procedures shall be followed:

(1) Do not drain the disinfectant solution. The unit shall be turned off and the disinfecting solution shall be left undisturbed in the unit for 6 to 10 hours.

(2) After the disinfectant solution has been sitting between 6 to 10 hours, drain and rinse the basin with clean water.

(3) Refill the basin with clean water and flush the system.

(4) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done weekly.

(f) The pedicure-cleaning log shall be made available upon request by either a patron or a board representative.

(g) A violation of this section may result in an administrative fine and/or disciplinary action. Each footspa or air-jet basin not in compliance with this section may result in a separate violation.

NOTE: Authority cited: Section 7312, and 7406 Business and Professions Code.
Reference: Section 7312(e), Business and Professions Code.

(2) The Board hereby Adopts Section 980.2 of Article 12 to read as follows:

980.2. Procedures for Cleaning and Disinfecting Pipe-less Footspas.

(a) As used in this section, "Pipe-Less" footspa is defined as any unit with footplates, impellers, impeller assemblies and propellers.

(b) After use upon each patron, each Pipe-less footspa shall be cleaned and disinfected in the following sequential manner:

(1) All water shall be drained from the spa basin.

(2) Remove footplate, and any other removable components according to the manufacturer's instructions.

(3) Scrub all visible residue from the impeller, footplate, inside walls of the basin, and/or other components and the areas behind or under each with a clean brush and liquid soap (labeled as such on soap product) and water. Rinse with clean water.

(4) Reinsert the properly cleaned impeller, footplate, and/or other components.

(5) Refill the basin with clean water and circulate the correct amount (read the label for mixing instructions) of the EPA-registered hospital-liquid disinfectant which the label claims is a bactericide, fungicide, and virucide, through the basin for at least 10 minutes.

(6) Drain, rinse and wipe the basin dry with a clean paper towel.

(7) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done after a client.

(c) At the end of every day and after performing the procedures provided in subsection (b) (1 through 7) and after the last client, each pipe-less footspa shall be cleaned and disinfected in the following sequential manner:

(1) Fill the basin with warm water and detergent (labeled as such on detergent product) and circulate the detergent through the spa system for at least 10 minutes (follow manufacturer's instructions).

(2) Drain the detergent solution and rinse the basin.

(3) Refill the basin with clean water and circulate the correct amount (read the label for mixing instructions) of the EPA-registered hospital-liquid disinfectant which the label claims is a bactericide, fungicide, and virucide, through the basin for at least 10 minutes.

(4) Drain, rinse and wipe the basin dry with a clean paper towel.

(5) Allow the basin to dry completely.

(6) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done at the end of the day.

(d) At least once each week, after completing the procedures provided in subsection (c) (1 through 3), and the disinfectant solution in each pipe-less footspa shall not be drained and the following sequential procedures shall be followed:

(1) The unit shall be turned off and the disinfecting solution shall be left in the unit undisturbed for 6 to 10 hours.

(2) After the disinfectant solution has been sitting between 6 to 10 hours, rinse and wipe the basin dry with a clean paper towel.

(3) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done weekly.

(e) The pedicure-cleaning log shall be made available upon request by either a patron or a board representative.

(f) A violation of this section may result in an administrative fine and/or disciplinary action. Each pipe-less footspa not in compliance with this section may result in a separate violation.

NOTE: Authority cited: Section 7312, and 7406 Business and Professions Code.
Reference: Section 7312(e), Business and Professions Code.

(3) The Board hereby Adopts Section 980.3 of Article 12 to read as follows:

980.3. Procedures for Cleaning and Disinfecting Non-Whirlpool Foot Basins or Tubs.

(a) As used in this section, "Non-Whirlpool Foot Basin" or "Tubs" are defined as any basin, tub, footbath, sink and bowl – and all non-electrical equipment that holds water for a client's feet during a pedicure service.

(b) After use upon each patron, each Non-Whirlpool Basin or Tub shall be cleaned and disinfected in the following sequential manner:

(1) All water shall be drained from the foot basin or tub.

(2) The inside surfaces of the foot basin or tub shall be scrubbed and cleaned of all visible residues with a clean brush and liquid soap (labeled as such on soap product) and water.

(3) The foot basin or tub shall be rinsed with clean water.

(4) Refill the foot basin or tub with clean water and the correct amount (read the label for mixing instructions) of the EPA-registered hospital-liquid disinfectant

which the label claims is a bactericide, fungicide, and virucide. Leave the disinfecting solution in the foot basin or tub for at least 10 minutes.

(5) Drain, rinse and wipe the basin dry with a clean paper towel.

(6) Record this procedure in the pedicure-cleaning log. The log shall contain the date and time of each cleaning, initials of the person who completed the procedure, and shall indicate that the cleaning was done after a client.

(c) The pedicure-cleaning log shall be made available upon request by either a patron or a board representative.

(d) A violation of this section may result in an administrative fine and/or disciplinary action. Each non-whirlpool foot basin or tub not in compliance with this section may result in a separate violation.

NOTE: Authority cited: Section 7312, and 7406 Business and Professions Code.
